1 € 14    5 € 59  
3 € 38    10 € 113

-  45% Sativa 55% Indica
-  600-650 gr/m<sup>2</sup>  kg
-  110 cm  cm
-  60/65 days
-  End September
-  26%  0.5%

**Banana Punch™** is yet another breeding masterclass from the Barney's Farm lab and the next delicious addition to our prestigious exceptional flowers collection, combining two of the most sought-after genetics Banana OG and Purple Punch! We selected an extraordinary tranquilising 55% Indica biased variation to evolve that consistently provided higher yield potential combined with a shorter flowering period of just 60-65 days. This combined with enhanced terpene production especially of Limonene and Pinene created a citrus tropical fruit flavour backbone perfect for the banana OG's exquisite essences of ripe sweet banana shine through. **Banana Punch™** is a strong sturdy plant and extremely versatile to a wide range of growing techniques, indoors reaching a perfectly manageable height within a few weeks whilst outdoors you can expect something very special reaching maturity towards the end of September. The breath-taking colours and aromatic traits of our OG Kush descendant Purple Punch were not lost during the breeding process, as our **Banana Punch™** evolves, beautiful deep purples and oranges emerge in contrast to the dark vibrant shades of green. With the onset of flowering its branches rapidly take shape, its olive shaped clusters continually expanding and multiplying, becoming densely covered with bright amber pistils and golden coating of sticky resinous trichomes. The most abundant terpene in our **Banana Punch™** is limonene, followed by Pinene, myrcene and caryophyllene.

56/63 days

End September

THC 26% CBD 1.6%

During our selective process on **Biscotti Mintz™** we introduced a critical Kush pheno that displayed an unusual 30% sativa characteristic. This combined with our delicious Mintz brought something very exciting to the table, a 70% indica dominant plant, totally unique to our catalogue with amazing characteristics. **Kush Mintz™** with its powerful Himalayan OG Kush lineage is extremely vigorous, powerful indica now with a 30% sativa boost. The explosion of the Critical lineage infusion brings huge yields both indoor and out with outdoor heights reaching 2 meters, super strong and sturdy with unbelievable production capabilities. The Mintz unsurprisingly further enhances those famous earthy Pine and sweet citrus Kush aromas with hints of coffee and delicate hints of minty cookies!

Early October

THC 27-29% CBD 0.8%

Barneys Farm **Runtz Muffin™** is the result of the diligent amalgamation of Zkittlez X Gelato, this gratifying Cookies descendant will delight you with her remarkable flavours and potent, balanced nature. The lab then delicately fused our Orange punch to not only increase the indica % but adding significant production benefits. Experiencing this delicacy is like being wrapped up in a sweet smelling blanket of perfumed lavender bliss with a faint twist of clementine. Dense, smouldering smoke delivers a fruity hit of joy and euphoria that stretches throughout your day. Bathe away your worries and strife in a sumptuous sea of fruity flavours, buds literally dripping in an intoxicating syrup pushing the needle to a prodigious 29% THC.

-  26-30%  1%

The Mimosa evolution continues with this new explosive orange flavoured super compact sensation, behold another brand-new super strain from the lab at Barney's Farm. Ingeniously created by a further careful back crossing of our famous Orange Punch with the 2020 sensation Mimosa EVO™. This additional genetic infusion resulted in an astounding fast producer of gorgeous smelling bud; beta-caryophyllene, linalool and limonene terpenes create a sensational citrus-like, tangerine-candy sweet aroma. This crossing produced an extra compact plant compared to Mimosa EVO™ yet manages to maintain the staggering high production performance.

This stunning and highly regarded relative of OG Kush visually defies reality with her breathtaking pink and purple hues. Her flowers are dense and shimmer in the light with glistening trichomes in less than 70 days. Produces dense buds, so low humidity preferable. Many find this vanilla scented jewel the perfect antidote to serious sleep issues as it is extremely effective for both pain and insomnia. The OG in her means you can expect heavyweight effects in addition to a much-loved light feeling that provides guaranteed sensual satisfaction. Rich in terpenes, **Pink Kush™** tantalizes the nostrils and clears the senses. Flowering indoors is normally complete in 9 weeks, outdoors a dry climate is preferred. High yields can be expected 600-700 gr/m<sup>2</sup>, even though height is a modest 1.2m.

This remarkable plant is indeed descended from the famous genetics originally discovered by somebody only known as 'Bubbha' in the US. It has now been stabilised by the team and elevated to a standard that befits its well known history and reputation. This surely is one of the most loved Indicas in the world, weighing in at a startling 29% THC.

**Bubba Kush™** is a cheeky yet productive plant that will not become excessively tall during her speedy 8 to 9 week flowering period. Because of this characteristic she can be an ideal candidate for those seeking a powerful hard hitting strain that does not take up a huge amount of space whilst budding.

Barneys Farm Feminized **Cheese™**! Little introduction is required for this all time classic from the vault of Barney's Farm. This highly guarded bona fide specimen will take you into another cheese based galaxy, overflowing with pulsating creativity and love. An utter delight to grow, this stinky powerhouse will develop a prodigious amount of side branches loaded with glistening cheese delights. Indoor gardeners are able to take 600 g/m<sup>2</sup> with outdoor experts achieving well over 1kg for a single plant. All this after a mere eight weeks of flower. The captivating cheese experience will make your day dreamy and delightful, giving you an impressive boost in creativity and sociability that will make everything sparkle that little bit brighter.

Barneys Farm are continually pushing the limits of marijuana genetics, improving their selection and breeding processes to create something that is truly breath-taking. **Acapulco Gold™** is the next generation of marijuana. Like the original namesake the **Acapulco Gold™** flowers with fat colas, flecked with beautiful reddish brown calyx, each covered with beautiful crystals of THC. The smoke has an intense fruit cocktail flavour that lingers for hours. This is a Sativa dominant strain that offers a long lasting high, balancing relaxing stress reduction with a real upbeat effect. **Acapulco Gold™** far surpasses the rhapsodized smoke of days past.

**Amnesia Lemon™** was created in collaboration with Barneys and the legendary Soma, winning the Cannabis Cup in 2004. Following this huge win Soma passed on his very best phenotype of Amnesia Haze to Barneys Farm Labs. **Amnesia Lemon™** is a delicious blend made by a crossing Amnesia Haze with Lemon Skunk. The tantalising flavours combined with the power and resilience of both lineages produced this spectacular strain. The uplifting and cerebral high is definitely Sativa and will leaving you wanting more. The **Amnesia Lemon™** has a flowering cycle of just 8 to 9 weeks and grows medium high, with long dense colas.

- 55/65 days
- End September
- THC 21%    CBD 1.4%

The Farm received a gift of these Red River Delta seeds some years ago. When grown out these incredibly beautiful purple/ruby red plants were a revelation. By crossing with the original Master Kush we found a perfect plant. **Ayahuasca Purple™** displays almost pure Indica traits. Wide fan leaves and a short strong heavysset structure carries colossal dense buds that turn to a beautiful purple hew in the last two weeks of flowering. Branches need support in the final week of flowering. This strain creates a heavenly, relaxing and satisfying effect with a rich, rare hazelnut and papaya aroma.

**Bad Azz Kush™** is a strain which was created by breeding a true Indica which is rich in history dating back to 98 in Los Angeles. **Bad Azz Kush™** originally started life from specially selected breeding by our friends in L.A. over years of careful and persistent work. By crossing the Original OG with Afghan Kush and from there crossing it with Urkel, **Bad Azz Kush™** was born. The plant can stretch in the flowering period and will need some space for enormous colas to develop. This is a heavy resin producing strain with enticing and unique dank and subtle forest fruit aromas. We owe a special thank you to our friend and rapper Bad Azz from Tha Dogg Pound Gangsta Crips.

- 350 gr/m<sup>2</sup>   kg
- 140/160 cm   cm
- 90/95 days
- Mid November
- THC 26%   CBD 0.4%

A strain named in honour of an amazing Cannabis advocate, researcher and author, Dr. Lester Grinspoon. This is a pure heirloom Sativa which grows tall and thin. This plant requires a longer flowering time, but when mature the colas resemble compact green and reddish brown beads. These loosely hang on thin stems, the buds give a lemon and sumac scent and produce a light smoke with tangy tropical fruit aromas. **Dr. Grinspoon™** offers an old school Sativa of the highest order, which gives a strong, long lasting, energetic and cerebral high.

- THC 25%   CBD 1.3%

**Liberty Haze™** is a strain created from a crossing of G13 with a fast flowering ChemDawg 91. This strain has both Indica and Sativa characteristics, and has a fast flowering time of 8-9 weeks, where it grows to a medium height. This plant has a substantial girth, and performs excellently both indoors and outdoors. The long dense colas start to fatten up in the last few weeks, producing dense buds in a beautiful red and purple calyx. The buzz is immediate and long lasting, creating a euphoric cerebral effect. This strain has a distinct lime taste and fragrance.

Featuring a totally unique twist, Barney's Farm continues its quest in the creation of pioneering genetics with our own **Strawberry Cheesecake Auto™**. After extensive selective breeding with our various strawberry terpene-rich strains, we chose a tantalizingly subtle Strawberry Pie pheno. The lab then crossed this with a rare cutting of an Afghan OG. The infusion of these Indica dominant Kush traits ensures rapid growth, incredible production capabilities and a strong forgiving structure. Crossing this creation with our BF Super Auto #1 means **Strawberry Cheesecake Auto™** can also thrive in cooler climates, larger in life than most autos, but perfectly compact and completing its life cycle in a blink of an eye. During its growing stage our **Strawberry Cheesecake Auto™** is typically unassuming before the rapid growth of its blunt shaped flowering branches reach out, its dark green leaves eventually transform producing beautiful deep purple tinges. Predictably this is a very sticky resinous plant with deep orange flowers covered in a thick layer of trichomes indicative of delicate icing on a cake. The aromas are quite intriguing, sweet goat's' cheese with hints of aged earthy skunk topped with a subtle release of strawberry hash and fresh wild berries.

**Amnesia Haze Auto™** is probably one of the most exciting releases that Barney's Farm has put out in a while, a long awaiting and overdue evolution of a true classic. The ancestry of Amnesia Haze genetics is quite breath-taking, crossing landraces from Southeast Asia (Thai, Cambodian, Laotian) a sprinkle of Jamaican Haze varieties topped off with the accelerant of Afghani – Hawaiian genetics. Nearly two decades ago, Soma gifted one of his best Amnesia Haze phenotypes to the Barneys Farm Labs. These legendary genetics that dominated the Amsterdam scene since Barney's won High Times Cannabis Cup in 2004, have been quietly simmering in the background enduring a complex fusion with our BF Super Auto #1.

**Moby Dick™** by Barneys Farm was created using White Widow, one of the world's most popular strains over the last two decades then crossed with our Cup winning G13 Haze. Featuring these two legendary strains expertly fused by Barneys Farm, **Moby Dick™** has evolved once more now crossed with our BF Super Auto #1. With its parents some of the biggest yielders you can find could only mean one thing. Breath-taking production, strong, robust, and perfectly balanced genetics creating a highly mould resistant Sativa dominant power plant. Our **Moby Dick Auto™** version is now more compact, with a shorter autoflowering growing cycle but little has been lost in its production capabilities, power, and flavours.

After the runaway success of Runtz there was absolutely no other option but to create an autoflowering version of our previous work. This auto manages to deliver the same outstanding package of plant, but in a smaller time frame - just 70 days from seed! Final growing heights of around 120 cm can be expected. Yields still pack a punch - with experience and the correct lighting conditions it is possible to push her as far as 600 g/m<sup>2</sup>. Just like the original, she can bathe away your worries and strife in a sumptuous sea of fruity flavours, with killer buds that are smeared in an intoxicating layer of diverse cannabinoids. We have even managed to preserve some of the outrageous tastes that the original had in this version, so you'll be able to have the same amount of fun and enjoyment in a much smaller grow window!

This is not a plant for beginners and its hard hitting effects should be treated with respect. This new super-fast version 55% Indica of our glorious **Gorilla Glue™** crossed with the exciting next generation BF Super Auto #1 produces huge yields 600 g/m<sup>2</sup> growing to height of up to 110 cm. Gorgeous scents of coffee and cream can be detected during flowering. Combined with notorious THC levels of 25% and you can understand the deep love people feel for this unique plant. In only 70-75 days huge fragrant flowers with very tight nodal spacing will erupt from this monstrous autoflower. Enjoy some psychedelic exuberance from this Indica dominant addition to our Autoflowering Cali Collection.

The **Afghan Hash Plant™** was chosen from seeds collected in the 1970's, from the best traditional hash makers in the Mazari Sharif region. An exciting few years were then spent growing out and selecting the strongest and tastiest phenotypes for our breeding stock, from there the **Afghan Hash Plant™** was unearthed. It is a champion hash making variety and is one of our favourite pure Indica strains. This has become an important building-block in other Barneys Farm hybrids and in just 8 weeks flowering, the **Afghan Hash Plant™** develops dense resin-dripping flowers, releasing a rich sandalwood aroma that's undercut with a punch of citrus.

**Critical Kush™** is now available as a regular strain for connoisseurs in search of the ultimate **Critical Kush™** mother. Barneys Farm **Critical Kush™** is a fusion of two of the world's most distinguished genetics, Critical Mass (Mr. Nice) and our own OG Kush. The **Critical Kush™** hybrid is a powerful and extremely vigorous Indica plant, yielding huge amounts of beautiful very potent flowers. The Kush taste is unmistakable and the yield per plant is phenomenal. Flowering to perfection in just 7 to 8 weeks indoors, growing to a medium height, with side branches needing extra support to carry the weight of the beautifully developed majestic colas of bud. **Critical Kush™** produces very dense heavy flowers.

Maintaining our mystical G13 legend by crossing G13 with a classic Skunk#1. Crossing the G13 X Skunk#1 with our favourite Hawaiian Sativa, Barneys Farm has taken the G13 legend soaring to a celestial high, creating the famous **G13 Haze™**. This plant produces a high that covers the complete spectrum of effects, with a full body stone combined with a psychedelic Sativa high. The combination is powerful, heavenly and unforgettable. **G13 Haze™** grows relatively tall and produces an outstanding generous flower structure with healthy resin production.

**Pineapple Haze™** is the coming together of the legendary earthy Afghan X Skunk#1 and the spicy Old School Haze. This produced a supreme Sativa dominant hybrid with an extravagant harvest, delicious pineapple flavours together with a heavenly cerebral high. The average yield is 600 gr/m<sup>2</sup> indoors, but a longer pre-flowering time will increase up to 700gr/m<sup>2</sup>. **Pineapple Haze™** thrives outdoors in most climates and yields of 1.5 kilos per plant are not unusual. The plant is mould resistant, hardy and rewarding for even the most novice grower. EC levels at a maximum of 1,70 EC during the flowering period will help the plant to its ultimate best.

**Widow Remedy™** was created by first crossing Tijuana Sativa with Kerala which created a beautiful Sativa dominant plant, flowering with high levels of cannabinoids. The strain was then further developed when combined with a pure Afghan, mainly to increase yield, shorten the flowering period and the added bonus of increased CBD potency in the final selection. The final result from this three-way blend is a remarkable hybrid with lineage approaching to the widow strain with added CBD. **Widow Remedy™** is an effective cure for pain relief, insomnia and comfort for nausea. Rainy day blues evaporate in its mist.
